

“Estonia Legal Hackers Meetup: Is Regtech the new Fintech?”

NJORD Associate Partner Anne Veerpalu along with Head of Legal of the region’s technology giant Nortal Mr Risto Hübner have already for a year now co-organized Estonia Legal Hackers meetups for tech people interested in legal issues and law practitioners interested in technology.

This year they are also joined by Mr. Evert Nõlv, the prodigy kid currently changing legal technology scene in Estonia with xlaw.eu after working for legal tech startup RAVEL in Silicon Valley for the past year.

Estonia Legal Hackers has just recently held their first event of the season in Tartu, Estonia, on Legal Analytics Competition launched at the Legal Tech Conference at the end of May 2016. Now the second event has been announced under the headline **Is Regtech the New Fintech?** The event will include a presentation by Mr. Marek Pajussaar from Estonian Financial Supervisory Authority (FSA) who heads the fintech working group at the FSA. His presentation will be followed by a panel of some of the interested businesses from Estonia including **Funderbeam** – crowdfunding, trading and analytics platform on blockchain, **bitcasino** – bitcoin gambling operator, and **Transferfast** – payment services innovator.

If you want to know what regtech is and why you need it – come join us at the meetup on 1st of November 2016 at 6.30 pm in Nortal offices. The event will be held in English. Register here: <http://www.meetup.com/Estonia-Legal-Hackers/events/234937401/>
