

COVID-19: What financial and economic support measures are available for your company in each of the Baltic states and Poland?

The economic impact of the COVID-19 crisis has been obvious. Multinational companies are particularly challenged and need to understand where there is access to governmental relief for local entities.

NJORD Law Firms in Estonia, Latvia, and Lithuania in cooperation with Penteris Law Firm (Poland) have compiled an overview of key financial and economic support measures being introduced by governments and institutions in relation to the COVID-19 pandemic in the Baltics and Poland. Note that some of the relevant measures are still being prepared, and the legal regulations change rapidly.
