

Maritime and Transport Law's Annual Report 2019

In this annual report from the Maritime and Transport Law Team, we summarise the key legal trends for the Danish transport industry in 2019. We also look at the trends that will have an impact on the industry in 2020.

Read about the Mobility Package, which was a very hot topic on the political agenda in the EU throughout 2018 and 2019 and that will undoubtedly turn international road transport and the entire logistics chain upside down. You can also read about offshore wind - a segment that is rapidly growing.
