PROFILE

Steffen Hebsgaard Muff specializes in construction law, insurance law, and maritime law. He works on complex energy and infra

structure projects. With over 10 years of experience in international projects, including projects based on FIDIC terms, he is an active contributor to FIDIC. Steffen Hebsgaard Muff works with collaborative forms of agreements such as Alliancing, Integrated Project Delivery, and early contractor involvement.

Based on his expertise in construction and maritime law, Steffen Hebsgaard Muff possesses a particular competence in the offshore sector. His experience in insurance and construction law, as well as building construction, enables him to add value in cases involving building damages and design liability.
